Produce

A problem and solution brainstorm table is a tool used to organize and analyse potential problems and solutions related to a specific topic or project. It typically includes a list of identified problems, their root causes, and potential solutions to address them. This tool can be helpful in identifying key issues and developing effective strategies to solve them.

Producto	Description	Fabrica
Tenis deportivos	We don't know how to develop KPIs and how to best communicate metrics so that they inform decision-making.	Add your idea here 🖋️
Playera de compresión	Our social media following is low and we aren't attracting new customers as much as we would like.	
Polvo de magnesio	We don't have systems in place to offer high-quality customer service.	
Mancuernas	We don't know how to develop KPIs and how to best communicate metrics so that they inform decision-making.	
Helado fit	Since our brand loyalty and following is low, we are struggling to meet sales goals.
